The optaro® app

The optaro® app can be downloaded from the Apple App Store.

The intuitive-to-operate optaro® app is used to control the camera module and customise the reading experience, for example with:

- Customised magnification adjustment and an overview function
- 14 different false colour modes
- Optional orientation guides
- Tell-Me function that reads out loud a group of words

Protective case and universal stand

REQUIRED FOR USE

A

13 custom-fit protective cases for various iPhone models from iPhone 12 onwards

B

magnetic universal stand suitable for almost every iPhone model

ESCHENBACH

optaro®

VISUAL COMFORT, SMARTLY CONCEIVED.

optaro®

An iPhone-friendly reading aid

optaro® turns the iPhone* into a fully functional reading aid for at home or when on the move – and adds a number of functions to smartphones for high visual comfort and rapid reading success.

Camera module	iPhone	Case/ Universal stand	optaro® App

For upgrading purposes, the optaro® camera module and iPhone are simply inserted into the corresponding protective case** or used with the magnetic universal stand.

The optaro® app is used for camera module control and customising all functions according to your personal requirements.

Electronic vision aid and smartphone in one

① Full HD camera
produces a sharp image with high depth of field at a magnification of 3 to 15x*. The central camera position facilitates orientation. With a 41 mm field of view, optaro® is perfect for visual tasks in your home or when on the move.

② Glare-free illumination
ensures a high-contrast and homogeneous image.

③ Integrated stand
for relaxed reading: An ideal tilt angle guarantees an ergonomic posture. The camera automatically swivels into a reading position when the stand is folded out.

Weight: 120 g
